DETAILED ACTION

Page 2

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-38, drawn to a protected capillary tube, classified in class 422, subclass 100.
 - II. Claims 39-53, drawn to a method of making a protected capillary tube, classified in class 204, subclass 450.
 - III. Claim 54, drawn to a method of using a piezoelectric pipetting device, classified in class 436, subclass 180.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by a materially different process such as co-extrusion of the capillary and rigid tube.
- 3. Inventions I and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be operable without a piezoelectric element such as a syringe.

Application/Control Number: 10/087,696

Art Unit: 1743

4. Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art as shown by their different classification, restriction

for examination purposes as indicated is proper.

5. A telephone call was made to Robert Storwick on March 9, 2005 to request an

oral election to the above restriction requirement, but did not result in an election being

made.

Conclusion

Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Jyoti Nagpaul whose telephone number is 571-272-

1273. The examiner can normally be reached on Monday thru Friday (8:00-4:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.
